JAVA | VisionPLUS | Cards and Payments | Claude AI

PROFESSIONAL SUMMARY

Associate Software Engineer with 1.5 years of experience in Java, Spring Boot, REST APIs, Hibernate, PostgreSQL, and Microservices. Knowledge of Cards & Payments and Vision PLUS, including ATM/POS processing, ISO 8583 messaging, authorization, clearing, settlement, and Vision PLUS modules. Knowledge of Generative AI and LLM concepts, including Claude, LLM fundamentals such as tokens, context windows, tool use and context engineering. Proficient in development and API testing tools such as Git, GitHub, Maven, and Postman.

TECHNICAL SKILLS & TOOLS

Programming & Tools	• **Programming:** Core Java, OOP, Collections, Exception Handling • **Spring Boot:** Spring Boot, REST APIs, Hibernate, Microservices, Maven. • **Database:** PostgreSQL • **Tools:** Git, GitHub • **API Testing:** Postman
Cards & Payments	• **Card Processing Concepts:** Card Lifecycle, BIN, Merchant, Acquirer, Network, Issuer • **Transaction Processing:** ATM & POS Processing Flow, E-Commerce, Card-Present (CP), Card-Not-Present (CNP)Domestic & International Transactions. • **Authorization, Clearing & Settlement:** Authorization flow, Clearing, Settlement, Chargebacks, and Single & Dual Message Systems (SMS / DMS). • **Payment Networks & ISO 8583:** Visa, Mastercard, and ISO 8583 Messaging, MTI, Bitmap, Data Elements. • **Payment Switching:** Acquirer & Issuer Processing, On-Us/Off-Us Processing, Payment Switch Architecture. • **Card Security & Validation:** Luhn Algorithm, PIN Block, EMV.
VisionPLUS	• **VisionPLUS Modules:** Functional exposure to CMS, FAS, CDM, TRAMS, CTA, LMS, LTS • **Core Processing:** Batch Programming, Transaction Processing, End-of-Day (EOD) Processing • **Financial Processing:** Authorization Processing, Clearing, Settlement, Monetary & Non-Monetary Updates
Generative AI & LLM	• **Claude & LLM:** LLM Fundamentals, Claude Models, Tokens, Context Windows • **Claude API:** Messages API, System Prompts, Parameters, Streaming, Batch API, Structured Outputs • **Prompt Engineering:** Few-shot Prompting, Role-based Prompting, Instruction Design, Output Formatting • **Tool Use & Agents:** Tool Calling, Tool Management, Agent Workflows, Planning, Multi-step Tasks • **AI Security & Evaluation:** Prompt Injection, Data Protection, Guardrails, Testing & Evaluation

EXPERIENCE

Associate Software Engineer | UniqueHire, Hyderabad | **May 2025 – Present**

Developed backend applications using Java, Spring Boot, REST APIs, Hibernate, and PostgreSQL.

Worked on Cards & Payments concepts including ISO 8583, EMV, ATM/POS transaction processing, authorization, clearing, and settlement.

Gained functional knowledge of VisionPLUS, including v+ modules, transaction processing, batch processing, EOD processing, and financial operations.

Used Git, Maven, Postman for development, API testing, and project activities.

PROJECTS

Project 1: Daily Finance System | Java, Spring Boot, PostgreSQL, Microservices

- Developed a microservices-based finance management system for managing daily income, expenses, transactions, and financial records
- using Java, Spring Boot, REST APIs, Hibernate/JPA, and PostgreSQL.
- Designed the system to manage customers, financial plans, loans, payments, fines, and transaction records.
- Implemented Plan lifecycle,
- Developed REST APIs for creating, updating, retrieving, and managing financial transactions.
- Integrated API Gateway for centralized request routing across backend services.

Project 2: Merchant Management System | Java, Spring Boot, PostgreSQL

- Implemented backend APIs for merchant onboarding, card management, and payment transaction processing.
- Implemented card payment authorization with status, expiry, and available-limit validation.
- Handled approved and declined transactions using payment response codes and decline reasons.
- Implemented secure card masking, transactional processing, and database locking for reliable payment processing.

Project 3: RIVO – HRMS Application | Functional & API Testing

- Performed functional testing across Admin, Recruiter, Team Lead, Manager, and Notification modules.
- Performed API testing using Postman, validating requests, responses, status codes, and parameters.
- Designed and executed positive and negative test scenarios to verify application functionality.
- Identified and reported defects with expected and actual results using Jira.
- Performed defect retesting and regression testing after bug fixes.

EDUCATION

Bachelor of Technology (B. Tech) – Electronics and Communication Engineering (ECE). 2021 – 2025

Teegala Krishna Reddy Engineering College, Hyderabad

Intermediate – Mathematics, Physics, Chemistry (MPC). 2019 – 2021

Sri Chaitanya Junior College, Hyderabad

Secondary School Certificate (SSC). 2018 – 2019

St Gonsalo Garcia High School, Parigi
